

El Aguilón

Directions from Gibraltar airport:

Check with your hire car company before you arrive that you will be collecting your car from the Spanish side of the border or you may get caught in a lengthy border queue which can sometimes take hours!

With the Gibraltar / Spanish border behind you, turn left and head west towards San Roque. Head towards the mountains you can see to your left, keeping the sea on your left. After approx. 5 km you will come to a junction with the main E5 coast road dual carriageway. Once you reach Algeciras, stay on the by-pass and avoid the LH lane which disappears down a tunnel to the port!

Keep following signs to Cadiz E5 & N340

After Algeciras, the road becomes the N340.

Tarifa is approx. 20km from Algeciras.

By-pass Tarifa and continue for approximately 15km in the direction of Cadiz. Every kilometre is marked by a small aluminium plaque at the side of the road.

El Aguilon is at Km 68.3 so as you pass kilometre marker 69, if you look to your right you will see El Aguilon in the distance.

There is a sign for a picnic / rest area at km 69. Just inside the rest area there are white-painted stones and a signpost marking the entrance for El Aguilon.

If you reach the turn to Facinas you've gone too far!
